HP Care Pack Options

Recommended Care Pack

Print two-sided documents with a networked MFP.

Quickly print two-sided documents—plus copy, scan and fax one-sided—with an affordable, Ethernet-connected MFP. Protect your fax information, using a PIN. A 35-page automatic document feeder makes you even more efficient.

[Enlarge Image](#)

Create a variety of high-quality business documents quickly, using Original HP LaserJet print cartridges, HP FastRes 1200, and a paper tray that accommodates multiple media sizes. HP LaserJet recommends ColorLok® papers for best printing results.

Print directly to your HP ePrint-enabled MFP, using a smartphone, notebook, or other mobile device.¹ Conveniently complete tasks with intuitive controls. Reordering and installing supplies is convenient and hassle-free.

Minimize your environmental impact. Cut your energy and paper use with automatic two-sided printing, Instant-on Technology² and Instant-on Copy.³

Compatible Operating Systems

Standard Desktop

The information contained herein is subject to change without notice. The only warranties for HP products and services are set forth in the express warranty statements accompanying such products and services. Nothing herein should be construed as constituting an additional warranty. HP shall not be liable for technical or editorial errors or omissions contained herein.

1. Requires an Internet connection to the printer. Feature works with any connected Internet- and email-capable device. Print times may vary. For a list of supported documents, and image types, see <http://www.hp.com/go/eprintcenter>. And for additional solutions, see <http://www.hp.com/go/mobile-printing-solutions>.
2. Compared with products that use traditional fusing.
3. When compared with fluorescent tubes, Instant-on Copy with LED technology drops energy use by 4 times in Idle mode and 1.4 times in Copy mode.
4. Measured using ISO/IEC 24734, excludes first set of test documents. For more information see <http://www.hp.com/go/printerclaims>. Exact speed varies depending on the system configuration, software application, driver and document complexity.
5. Scan speeds measured from ADF. Actual processing speeds may vary depending on scan resolution, network conditions, computer performance and application software.
6. Based on standard ITU-T test image #1 at standard resolution. More complicated pages or higher resolution will take longer and use more memory.
7. Duty cycle is defined as the maximum number of pages per month of imaged output. This value provides a comparison of product robustness in relation to other HP LaserJet or HP Color LaserJet devices, and enables appropriate deployment of printers and MFPs to satisfy the demands of connected individuals or groups.
8. HP recommends that the number of printed pages per month be within the stated range for optimum device performance, based on factors including supplies replacement intervals and device life over an extended warranty period.
9. Power requirements are based on the country/region where the printer is sold. Do not convert operating voltages. This will damage the printer and void the product warranty.
